Student Growth Objective				
Students enrolled by October count will demonstrate proficiency of essential course skills as measured by the Department/District-Approved Performance Rubric by the end of the school year.				
Baseline Data				
(Please include what you know about your students' performance/skills/achievement levels at the beginning of the year, as well as any additional student data or background information used in setting your objective.)				
<p>During 1st quarter, students received an initial score on the Performance Rubric (see attached spreadsheet). At this time, no students received an overall score of proficient due to the rigor of the standards. Historically, students consistently demonstrate high levels of growth through exposure to new topics, opportunities for collaboration, and project-based learning.</p> <p>Proficiency on the rubric will be measured by a compilation of scores within each performance category. With this, the department set developmentally appropriate cutscores for each level.</p>
