

# PANTHER GOLF

**WHO?** 9th—12th grade boys

**WHAT?** Interscholastic, competitive golf team

**WHEN?** The golf season runs from August 3rd through October 6th. Practices and competitions are held M-F during the season.

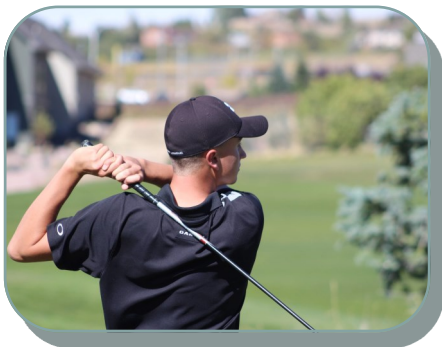

**WHERE?** Practices and some competitions are held at the Shining Mountain Golf Club. Other tournaments and matches are held at public and private courses along the Front Range and in the Pikes Peak Region.

**WHY?** Competitive golf is one of the most challenging experiences an athlete will face. Participants not only benefit from engaging in an outdoor sport during a beautiful time of the year, but they learn a specific skill set that engages their coordination, strength and stamina. Players face and overcome not only physical obstacles, but mental and emotional ones as well. This is a combination of an individual and team sport; players compete against each other and also against their own limitations and towards their own goals and measures of success.

## **OFF-SEASON INFORMATION:**

- Voluntary 'Open Range' sessions will be held throughout the summer leading up to Tryouts. These sessions are designed for individual skill development, assessment and practice with WPHS coaches.
- PPJG is a local golf association that provides a summer tournament circuit for junior golfers ages 14-18. This is an affordable and beneficial opportunity to play and compete prior to the high school season.
- Other junior tours and tournaments exist as well. Contact Coach Gustafson for more info.
