

Woodland Park School District
'Elevate Your Education'

Greetings Panther Fans!

As Woodland Park School District begins the 2018-19 school year, the Panther Pride Athletic Boosters are contacting local businesses to introduce our Panther Partners Program. We are excited to provide this win/win sponsorship opportunity to community business owners who are interested in helping support our young student-athletes participating in one or more of our 15 High School sports programs through various advertising options.

The Panther Partners Program is designed not only to financially assist the athletic programs at WPHS, but to provide valuable advertising and impression opportunities for local businesses and organizations. Throughout the course of the upcoming school-year, our student-athletes will participate in well over 100 home athletic contests that provide them the opportunity to learn the values of participation, sportsmanship, and competition. Additionally, these 100+ events provide entertainment for community members and opportunities for local leaders in commerce to communicate with potential target customers.

The Panther Partners Program is designed around your needs as a sponsor. In addition to web links on the WPHS Boosters page, an assortment of partnership options offers variety and flexibility for businesses wishing to advertise at local high school athletic events.

I encourage you to evaluate the attached information. The goal of the Panther Partners Program is to provide Partners with valuable impression opportunities, while providing resources for our student-athletes, and entertainment for this community. For more information, please email us at wphsboosters@wpsdk12.org.

Thank you for your consideration to support your WPHS student-athletes.

Sincerely,

Woodland Park High School Panther Pride Athletic Boosters
